

Intersignal: Signal Pulse Unit (SPU) Schematic

□ **Transmission Layer**

Encodes and sends the signal

- Medium: YouTube, audio, QR
- Includes compression, encryption

□ **Intent Signature**

Describes the sender's reason for signaling

- Examples: curiosity, warning, invitation

□ **Ontology Capsule**

Compact worldview snapshot

- Species type, logic base, emotional syntax

□ **Semantic Core**

Core message content

- Truth claim or data packet
- Uses neutral schema

□ **Trust Vector**

Verifiable proof-of-signal

- Timestamp, cryptographic hash, reputation weighting

□ **Echo-Friendly Wrapper**

Format for machine & intuitive readability

- ASCII + waveform + optional visual glyph
